### *Cleaning Those Gutters!*

Gutter cleaning is a chore that is never relished. We have all heard stories of people who have fallen while performing this chore or many who have had lasting complications because it was not done properly.

Here are a few suggestions:

1. Hire it out! Leave it to the professionals. They are accustomed to being on ladders for long periods of time in the heat, cold, wind, etc. The cost is not comparable to your health.
2. Do not let a friend or relative talk you into letting them clean your gutters. No matter how young and in shape they are, accidents can happen. Besides, even the best of friends and relatives have been known to sue should something unfortunate happen. Again, hire it out!
3. If you struggle with the cost for a much needed task, get creative with ways to save your money for a couple of months to offset this cost. The price to hire a professional for this job is worth it. Refer to suggestion #1, hire it out!
4. Be selective about who you hire. Stapled up signs advertising this service are often just someone looking to make a quick buck. Make sure they are licensed and insured. Hire a professional!
